

THE CENTRAL RECORD.

TWENTY NINTH YEAR

LANCASTER, KY., THURSDAY AFTERNOON, SEPTEMBER 12, 1918.

NUMBER 24.

CONDITIONS ARE SUCH THAT
certain kind of farming implements are very hard to get. If you are interested and need anything in this line, give us your order now.

Conn Brothers.
LIVE AND LET LIVE FOLKS.

REGISTER TO-DAY.

The recent rains have assured good fall grass.

To-morrow is Friday the 13th. Watch your step.

Flowers are said to be more plentiful than in years.

Cool nights bring visions of 'possum and sweet taters.

Early risers claim to have found frost in the lowlands and along creeks Sunday morning.

The sight of many good sized "patches" of sorghum in the county brings the hope that "long sweetenin'" at least will be plentiful during the autumn.

The Kaiser's hordes seem to have abandoned the "goose step" and adopted the "fox trot" in their eagerness to evade the eager khaki clad Americans.

If you think Lancaster people are not patriotic and anxious for the war news, just visit the depot and see the throng that is there every night, eager for the evening papers.

Registration booths will remain open until 9 o'clock tonight; if you are 18 years old and have not reached your 46th birthday you must register. Patriots will and others must register.

In this issue of the RECORD appears the Public Rental of a fine 235 acre farm in Madison County. Read the adv. for particulars or phone or write Z. T. Rice, Richmond, Ky., acting for Mrs. Zelia Donelson.

STORE CLOSED

The Joseph Mercantile Co., will be closed next Monday Sept. 16th, that date being the Jewish Day of Atonement.

MEN MUST REGISTER

You must register today. All men between the ages of 18 and 45, who have not previously registered must do so today. If you fail your punishment is one year imprisonment.

SICK IMPROVING.

Miss Elizabeth Johnson and Mr. Albert Ware, both of whom have typhoid fever, are getting on nicely and at the present rate of improvement, their entire and rapid recovery is expected and hoped for by their many friends.

VAULT ENLARGED.

In order to meet the needs of their rapidly growing business, the Citizens National Bank has just about doubled the capacity of their already capacious vault. The work is nearing completion and will when finished, render this one of the most commodious and up-to-date banking establishments in the country.

"GOING TO CHARITY."

The local nimrods who are wont to spend a week on the Rockcastle and Cumberland rivers every autumn, are beginning to prepare for their annual pilgrimage to "Charity's", and it is expected that two parties will leave here, one about the 23rd of this month, and the other about October 1st.

SOME CONSOLATION.

The exceeding scarcity of fruits and vegetables is somewhat softened by the knowledge that the pumpkin crop is an unusually good one this year, and this coupled with the fact that the rabbit crop is the best in years gives promise of a square meal occasionally, even tho it be an humble one.

AS TO SEED CORN.

Last spring seed corn not only commanded a fabulous price, but was well nigh unobtainable. Now Garrard county can raise as good seed corn as is obtainable anywhere in the world, under favorable circumstances. Garrard county farmers know just as much about selecting seed corn. It is reasonable to suppose that a goodly quantity of desirable seed corn may be obtained from the present crop, and as now is the time to select and preserve it, we respectfully suggest that farmers attend to this very important matter now, and avoid the difficulties which faced them at the last sowing time.

SERIOUS ACCIDENT.

While returning from a professional call on the Huckleys pike about 9 o'clock last Saturday night, Dr. J. A. Amon collided with a runaway horse on the steep hill near Mr. S. H. Estes'. The horse was killed and the machine was almost a total wreck. A young Mr. Scott, who was in the machine with Dr. Amon, was severely cut, sustaining at least a dozen wounds from the broken wheel shield about his person, none, however thought to be dangerous. Dr. Amon was luckily uninjured, save a cut about the face. The horse was a valuable animal and belonged to a colored man named Reynolds. The horse is said to have become frightened and run against a telephone pole, disengaging itself from the tangle to which it was hitched, and continued its mad flight until it met its fate as above related.

CIRCUIT COURT ADJOURNS.

Circuit Court adjourned last Saturday, and Circuit Clerk Burnside tells us it was the stillest term held during his incumbency, and as the records show, for many years previous.

Henry Teater for personal injuries inflicted on John Sewell suffered a judgment of \$800, against him in favor of Sewell; in the case of Robert Dunn against the L. and N. R. R. a verdict for the defendant was given.

The grand jury rendered their report after returning ten indictments, mostly for misdemeanors, and was discharged. This body in its report took occasion to compliment the various county officers in that they were carefully and efficiently attended; the jail they found without a prisoner, but in a splendid sanitary and well kept condition. They recommended that iron shutters be placed on the windows of the clerk's offices, to protect the records from all possibilities of fire.

EAGER FOR COAL.

Notwithstanding the fact that local coal dealers have used every effort to supply every demand for coal during the heated season, it appears that many have not as yet laid in their winter supply of fuel, and there is yet a spirited demand for fuel. Especially is this the case in the country, and when a car makes its appearance on a railroad siding there is usually a string of wagons anticipating its arrival and it is unloaded in record time.

WHY?

For a while the local church bells were sounded at noon each day, calling for a word or a period of silent prayer for the success of the allied armies. This was a beautiful practice, and one that called for the expenditure of very little time or money.

We have upon our Public Square a tall, splendid flag staff, but this staff is unadorned by a flag.

Surely our patriotism is not upon the wane?

Then why the discontinuance of the noonday ringing of the church bells, and why does not a good size edition of the stars and stripes adorn the flag pole?

CALL FOR VOLUNTEERS

A Patriotic Service is asked of men and women of Garrard County by the War Department to assist registered men in properly making out their Questionnaires. The Legal Advisory Board asks those who will be willing to do this work to send their names to Joe E. Robinson, Chairman, at once. They will be made associate members of this Board and given instruction in the work.

This is the most important patriotic work now before us and all persons who will assist should immediately give notice. This service is absolutely free to the Registrant, the Government will not permit a charge to be made for this work. Some Fourteen hundred men will be within this registration and this work will require a great number of both men and women to assist these registrants.

RAINS WERE CHEERING.

Ten days ago the outlook for the farmer was most gloomy; stock water was exceedingly scarce, the corn and tobacco crops were suffering and the fall grazing was almost despaired of. Copious rains of last week placed an entirely different aspect upon affairs. Springs and streams are running full force and there is an abundance of stock water. The late corn will be helped and the yield improved materially, while the early crop at least sustained no harm by reason of the downpour, and we are assured of splendid fall grazing. Tobacco perhaps benefited most by the rains; while a great deal of forward tobacco has been cut, housed and is curing nicely, yet fields of late tobacco which a week ago bore promise of being a complete failure, have undergone such wonderful improvement, that with the holding off of frost for a reasonable length of time are expected to come up to the usual average. All of which brings a smile of gratification to everyone, the farmer in particular.

THAT OTHER ARMY

Not only American but all the world is singing the praises of the Yanks. They have had their baptism of fire and have nobly stood the test. They have carried the fight to the enemy with a dash and vim that has been irresistible. They have vanquished the best of the crack Prussian division set to stay their advance. They have upheld every tradition of American arms and have thrown a chill of apprehension into the very heart of the German hordes. They are winning their crosses every day.

But there is another army of which no American is proud, nor ever can be.

THAT OTHER ARMY OF NON-HUYERS OF LIBERTY BONDS.

In it are the slackers, the pacifists, the so-called conscientious objectors, the miserly dollar pinchers and the Pro-Germans; the cringing, apologetic contemptibles of earth.

And there also to their shame are those others who are selfishly indifferent to the sacrifices being made for their protection, their safety, their continued existence in a land of peace and liberty. The smug, self satisfied apostles of ease, content to let others serve.

This is the army that is fast getting beyond pardon.

Thank God you are not in it! And if you are, DESERT.

The How and Why of Caloric Pipeless Heating

The CALORIC is not a pipe furnace with the pipes left off. Neither is it an experiment, hastily put together to meet a demand. It is specially designed to heat homes, halls, churches, stores, factories, etc., more uniformly, economically and satisfactorily than they have ever been heated by other systems.

The CALORIC works thru Nature's own laws of circulation by air currents. Warm air rises, cold air falls. Warm air and cold air cannot occupy the same space at the same time.

HERE'S THE SECRET
In the same volume that the warm air is pumped up into the house, an equal amount of cold air is drawn into the furnace, where it is heated, moistened by the vapor from the two gallon water pan, and then recirculated through the register. This continues as long as the fire burns.

Thus there is a constant circulation of properly moistened warm air. Just as running water purifies.

CALORIC

It's Original Patented Pipeless Furnace

See itself, so this circulating warm air, passing thru heat of from three hundred to eight hundred degrees, is which no germ can live, is kept pure and healthful.

The CALORIC is guaranteed by the oldest and largest manufacturers of warm air heating systems in the United States. You take no chances when you buy a CALORIC.

Whether your house is old or new, the Caloric is easily installed in one day, without interruption of your present heating arrangement. No holes knocked in your walls, no cellar full of heat-wasting pipes.

The Caloric requires but one register and occupies little space. It burns any fuel, and needs hardly any attention. Makes housework one-third easier, as there is no muss from carrying in coal and carrying out ashes—no smoke, gas or soot. Eliminates fire danger and increases the value of your property.

Visit us and we will gladly supply full information without in the least obligating you to buy.

KINNAIRD BROS

GARAGE SOLD.

The Rex Garage, the property of the Kinnaird Bros, which was sold at auction on last Saturday, was purchased by Messrs Roy Schooler and S. T. Samlers, the price paid being \$1.15 on the invoice price.

This is one of the most commodious and best equipped garages in Central Kentucky and we predict a splendid business for the two clever gentlemen who purchased it.

HENS LACKING

IN PATRIOTISM.

'Tis a great pity that some means cannot be devised to imbue the hens of the country with the prevailing spirit of patriotism. We are told that the present scarcity and resultant high price of eggs is due to the "moulting season", but it does appear to us that this, perhaps necessary season, is being unnecessarily prolonged. Anyway, eggs are higher and scarcer than we ever knew them at this season of the year.

JOY RIDING SUN-

DAY CURTAILED.

The automobile on the streets of Lancaster last Sunday was noticeable by its absence. Only those church goers who live at a distance from their place of worship and who had no other means of conveyance utilized them. A few straggling cars darted about covertly, but the sight of so many people viewing them with eyes of suspicion soon put them to shame and they soon disappeared. It is thought and sincerely hoped that the end for the conservation of gasoline will be heard and heeded with the coming of another Sabbath without the adoption of stringent measures, and that the joy riders will confine their operations to six days of the week.

NEW ENGINEER

AT POWER PLANT.

During the absence of Parker Jenkins, who is working at the great powder plant in Nashville Tenn., for a few months, Mr. Edo Ross is superintending the pumping station at the lake. Mr. Ross served in this capacity for many years and is fully qualified to handle the work.

It is a source of great pleasure to our people to know that, notwithstanding the considerable amount of dry-weather we have experienced this summer, there is more water and of a better quality in the lake than has ever been known at this time of the year. This fact is probably due to the spirit of conservation among the consumers, and further to the fact that the lake is holding splendidly, and what water is escaping is being caught and turned into the filter.

MARRIAGE VOWS

GROWS BURDENSOME.

If there was very little other business in the recent circuit court, the record was broken for divorces. Eight couples to whom the matrimonial yoke had become galling, were granted legal separation. For a community of this size it does appear that this is an abnormal number of separations to be sought and granted, and we are told that there are several more pending.

SMALL IMPROVED

FARM FOR SALE.

A good home of 43 acres in Garrard County, sand-stone land, all in grass except 10 acres, good improvements, two never failing springs and a good pool. Outside fences good. If you are looking for a bargain see the farm of the late John Beazley on Boone Creek before September 23rd. It will be sold by W. H. Brown, Master Commissioner on Sept. 23, 1918, in Lancaster, before the Court House door. A good home at a bargain. Look at it before the day of sale. If interested call on Arthur Beazley or Clarence Beazley, post office address Lancaster, Ky.

WORK ON GOVERNMENT

BUILDING PROGRESSING.

Structural iron for the main building of the local government building is beginning to rear above the superstructure, and the laying of brick is now in progress. War time conditions have served to hinder the construction of the house, material has been delayed, almost impossible to secure delivery, and progress has of a necessity been slow.

However the contractors have not been daunted by their many hindrances, but have kept steadfastly to their task, and in the course of time we may expect to have completed our new post office, which will be a credit to the community.

VALUABLE TRACTS OF

LAND TO BE SOLD.

We wish to call attention of our readers to the four sales of land to be made by Mr. W. H. Brown, Master Commissioner of the Garrard Circuit Court. One on Thursday, Sept. 19th and the other three on Monday Sept. 23rd. The land to be sold affords an opportunity for good homes and will probably sell at a reasonable figure. Some of these tracts are small and with good improvements and will be sold in reach of those of moderate means. By looking over the sale advertisements in this issue and a visit to the premises would place you in a position to be a bidder if they are sold at a bargain.

MANY SHEEP KILLED BY DOGS

Ways of Preventing Ravages by Animals Are Suggested by Agricultural Department.

(Prepared by the United States Department of Agriculture.)

Uniform state laws are advocated by the United States department of agriculture as being the most effective method of dealing with the sheep-killing dog. Investigation by the department among sheep owners in 15 states east of the Rocky mountains shows that out of a total of 6,830,492 sheep in the 502 counties reporting, 34,683 were killed by dogs in one year (1913) and were paid for by the counties. At the same rate of loss in other farm states the total annual destruction of sheep by dogs would be 107,760.

But these figures are based only upon the number actually paid for, and it is more than probable that the true losses far exceed this. It is known that many sheep are killed which are never reported to the county official.

In 1913 crop reports in 36 states submitted estimates which showed that the number of sheep in those states could be increased 150 per cent without displacing other live stock. Such an increase would place approximately 34,000,000 more sheep in these states than there are now. Of 1,411 answers received to the question as to whether sheep raising is profitable in the farm states 887 answered "yes." Of 594 answers as to the causes preventing increase in the numbers of sheep 531 said, "Dogs."

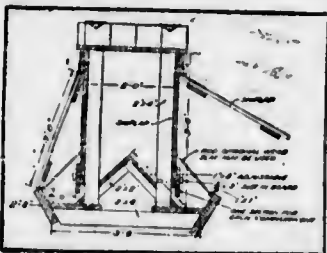

USE SELF-FEEDERS FOR HOGS

Device Will Give as Good Results as Most Expert Hand Feeder—Time and Labor Saved.

(Prepared by the United States Department of Agriculture.)

By means of the self-feeder the average farmer will have as good results as the most expert hand-feeder, and the results will be obtained at much less expense of time and labor. For the average farmer there is little doubt which method is the more economical, for the self-feeding system is advantageous in every respect. Its use results, first, in larger daily gains in live weight, bringing the pigs to a marketable size at an earlier date; second, feed is consumed more rapidly, and consequently gains are more rapid; and, third, as there is an actual saving in the amount of feed required to produce 100 pounds of gain. It is shown that the increased feed consumption and the more rapid daily gains are not made at the expense of efficient use of the feed. On the contrary, a smaller amount of feed is consumed in making pork, which is a fact of extreme importance at present. The last and one of the most important advantages to the farmer at this time is the saving of labor, for although daily watch must be kept on the self-feeder to see that each compartment is well supplied and not clogged, this requires only a fraction of the time necessary to hand-feed the same hogs several times a day.

The self-feeder may be adapted to the use of any kind of grain or feed, and shelled grain and ground feeds are most commonly used. It

Ohio Self-Feeder—End View With End Sliding Boards Removed.

may be adapted to handle ear corn, but such a feeder must be of large size and heavily made in order to hold sufficient grain to feed a bunch of hogs several days without refilling.

In order that the self-feeder may readily be adapted to different kinds of grains it should be constructed with some means of regulating the opening through which the feed passes. For example, cornmeal or barley requires a smaller opening to prevent too rapid a flow of grain than is required in the case of shelled corn. A well-constructed self-feeder will last a number of years, and as it may not always be convenient to feed the same grain every season some provision must be made to accommodate different sizes of grains.

Care should be taken to see that the self-feeder is always supplied with each feed, for if one part of the ration is missing the pigs will naturally eat an increased amount of any other available nutrient, and in such a case will make very poor use of it. For example, when tankage and shelled corn constitute the ration, if corn were to become exhausted the shoats would naturally eat a very large amount of tankage, which would not only fail to produce rapid gain, but would increase the consumption of a very high-priced feed. Too much emphasis cannot be placed upon this point, for the beginner is apt to become careless in the use of a device which does not require constant care.

Want to Build a Pyramid?

If the great pyramid of Cheops in Egypt were to be built today its total cost would be not less than \$150,000,000, according to experts who have studied the vast structure. Cheops is 450 feet high and covers almost thirteen acres. Upward of 100,000,000 cubic feet of stone were used in building this great pyramid.

That Strict Confidence.

We were listening (and who wouldn't?) to two women talking at each other on a Fifth Avenue bus in the more or less busy city of Gotham, and in so doing we heard one of the master paradoxes. One woman said to the other: "Why, she told me in strictest confidence only the other day."—New York Sun.

Babies Burdened With Names.

It begins to look as if the same person who used to christen the Pullman sleepers has taken up his residence in this city and is now naming war babies. A glance at the vital statistics records shows that some of the girl babies are going through life burdened with Christian names that will compel the growing generation to give considerable time and study to pronounce them. All of which recalls the words of General Sherman.—New York Sun.

Mr. and Mrs. R. G. Guynn are visiting Mr. and Mrs. Louis Guynn at Shelbyville, this week.

Mr. A. B. Wynn has been appointed rural carrier on Route 1, and will begin his duties on Oct. 1.

Mr. and Mrs. Thos. Logsdon are in Louisville this week, visiting relatives and enjoying the Fair.

Frank Ledford has come back from his home in Miamisburg, Ohio, to resume his studies in our school.

Miss Mabel Hall returned from a pleasant visit to Louisville, accompanied by her cousin, Miss Buck.

Misses Mayne and Geneva Murphy were week-end guests of Mrs. Ann Moberly and Miss Emma Borchell.

Mr. and Mrs. A. B. Wynn, and Mr. and Mrs. W. W. West and Logan West, motored to Lexington, Saturday.

Robert Arnold Jr., returned from Great Lakes Training Camp to spend a few days with his parents before resuming his training at State College.

Mr. and Mrs. Bennett Roop have moved from Frankfort here to make their home with Mr. and Mrs. M. L. Noe. Mr. Roop has been appointed Stenographer to the Local Examining Board and will assume his duties immediately.

Miss Amy Hester Patrick came Saturday to begin her duties at the graded school. She will have charge of the same grades as last year, and Paint Lick community is indeed glad to welcome Miss Patrick back where she made so many friends. She was the guest of Miss Christine Rucker over Sunday.

School opened Monday with the largest enrollment in its history. A full force of teachers was present. Miss Allie Dunn, Primer, Miss Hettie Williams 1 and 2nd; Miss Allie Russell Fish, 3rd and 4th; Mrs. B. B. Montgomery, 5th and 6th; Mrs. F. H. Smith, 7th and 8th; Miss Hester Patrick, 9th and 10th. The prospects are bright for a successful school year.

The sale of Mrs. Florence E. Walker's personal property Friday the 6th, was quite a success. A large crowd being present and everything brought good prices. Farming implements sold high as did the live stock. Milk cows brought from \$65 to \$140 per head, males \$400.00 to \$510.00 per pair; horses \$100. to \$175. each; feeding hogs \$21 per hundred; sows with pigs \$70 to \$90. The bidding on the antique furniture was spirited and a quantity of it was sold. The local Red Cross Chapter served lunch realizing \$101.33 therefrom. Mr. G. B. Swinebroad bought "Patsy" the old family saddle mare 26 years old which he gave to the Red Cross and when she was resold after dinner "Patsy" brought \$75.50. She will be resold at Paint Lick in the near future the proceeds to go to the same source. Col. Am. Bourne was the auctioneer of the day and much credit is due him for the splendid prices on everything.

HELP SAVE GASOLINE.

The request of the United States Fuel Administrator to assist in saving gasoline for torpedo boats, airplanes and motor lorries at the front by discontinuing the use of auto's on Sunday's was generally observed in Lancaster and Garrard County last Sunday. At least four-fifths of the people are said to have complied with the order, which is still in the nature of a request. It is hoped that ALL the people will comply with the request from now on and unless they do, the order will become mandatory and a penalty prescribed to cover such violations. The use of automobiles in going to and from church on Sunday is also barred in the request. The only exceptions to the order are as follows: Physicians using cars in performing professional duties, and the use of motor trucks in transportation of freight for the Government.

The coal situation now in Kentucky is very serious. The major portion of Eastern Kentucky coal is now being shipped to points West and Northwest of the Great Lakes. It is necessary that these shipments move during the summer months on account of the unsatisfactory navigation conditions on the Great Lakes during the winter period. At the present time the State Fuel Administrator is requisitioning no coal except in cases of extreme emergency. After the lake shipments are made we will get our coal—probably two-thirds of our requirements heretofore. Therefore the farmers and all who can, are requested to supply part of their needs this winter with wood or any kind of substitute for coal.

DR. W. A. WHEELER, Fuel Administrator Garrard County.

TIME IS U. S. BEST SOLDIER OF FINANCE

It Works Always To Put Liberty Bond Values Higher

Time works in favor of Liberty Bonds.

Some of the more restless-minded holders of Liberty Bonds of the Second and Third loans have lost sight of that fact and allowed the slight slump in the market price which took place this summer to worry them.

Those prices reflect only a temporary condition, says the Wall Street Journal, and the Treasury department is already in process of remedying it. The slump in part has been due to a misapprehension on the part of small investors who have gained a superficial knowledge of tax exemption features.

While bonds of the Second and Third loans, the 4 and 4 1/2 per cent bonds, are taxable and the 3 1/2 per cent bonds are tax free the small investor cannot be taxed by any income tax law now in effect or any later to be enacted on any of the bonds unless his holdings of 4 or 4 1/2 bonds reach \$5,000 worth or more. And yet a study of the transactions in bonds to date has revealed the fact that many of the sales are by small investors who have disposed of their 4s and 4 1/2s to buy 3 1/2s because some one has told them the 3 1/2s were tax free.

Everything which congress takes up in the way of financial legislation gets the careful attention of the Treasury department. Nothing is allowed to go far if its provisions in any way tend to lower values on Liberty Bonds. Liberty Bond holders have first consideration and everything is being done to facilitate the financing of the war.

Aside from the tax free features, which are only present influences after all, the Liberty Bonds should stand out as gilded investments for their after-the-war value. The capital which they will restore to the investor after the war will have a far greater purchasing power than the money which he is putting into the bonds now when money is so cheap and plentiful.

They Give Blood Abroad; We Must Give Our Treasure

Anyone proposing peace with Germany before Kaiserism shall have been crushed out of existence should either be interned or placed in an insane asylum for medical treatment.

Hudson Maxim.

That is the verdict of Hudson Maxim. The great gun maker gives tersely some of the reasons why the government needs five or six billion dollars more immediately—reasons why the fourth Liberty loan must go over with a big safety margin, why other loans soon to come must go over the same way.

"We cannot consider any terms of peace whatsoever with the German government as now constituted," Maxim's letter goes on to say. "Germany must be licked and the Hohenzollerns kicked off the throne before we can even talk peace without outraging our self-respect. The German military ring must be broken and so shattered that it can never be reunited."

"Those militaristic bandits of the breed of Altila who could bloodily prepared to plunder the world and enslave mankind are not fit to place their names to a peace compact beside those of the heroes who shall, with sacrifice of blood and treasure, save the world from their clutches."

"There is but one way to peace and that is the way to Berlin."

Liberty bonds will open that road for the American boys. Those at home must sacrifice their treasure as those over there sacrifice their blood.

Federal Bank Takes In Eighteen More Ohio Institutions

The Federal Reserve Banking System of the Fourth District has been taking on new strength for the fourth Liberty loan campaign. It has added to itself since the first of July eighteen Ohio banks and has applications pending from eight more.

The new member banks are The Peoples Saving & Banking Co., Harborton; Citizens Bank, Cuyahoga Falls; Commercial & Savings Bank Co., Buckeye City; Farmers and Citizens Banking Co., Milan; Rossford Savings Bank, Rossford; Home Banking Company, Gibsonsburg; Chagrin Falls Banking Company, Chagrin Falls; Provident Savings Bank & Trust Co.; Gibsonsburg Banking Company, Gibsonsburg; Cuyahoga Falls Savings Bank Company, Cuyahoga Falls; West Lafayette Bank Co., West Lafayette; Citizens State Bank, West Milton; Geneva Savings Bank Co., Geneva; Peoples Savings & Trust Co., Akron; Dime Savings Bank Co., Canton; Dayton Savings & Trust Co., Dayton; Struthers Savings & Banking Co., Struthers; City Savings Bank & Trust Co., Alliance.

Boyle county has the best pikes of any county in the State and this pike is the BEST one out of Danville: perfectly straight from city limits and no railroads to cross to this Beautiful Farm, only 10 minutes drive.

DESCRIPTION:—Broad, gently sloping fields, almost level, with here and there a black walnut, sugar tree or stately elm. The LAND OF BIG FAT CATTLE and BROAD ACRES OF FERTILE SOIL. 390 acres of this land is in sod and has been for years, the remainder recently broken from sod in cultivation as follows: 70 acres in corn, 10 acres in wheat stubble, 20 acres in buck-wheat, 10 acres in tobacco and hemp. This land has been grazed for years with BIG CATTLE and is NOW ready for the man who wants to make MONEY growing CORN, HEMP, TOBACCO, CATTLE and HOGS.

Once in a Lifetime is the Opportunity Offered to Purchase Such a Farm.

ADVANTAGES:—A BEAUTIFUL HOME, SPLENDID NEIGHBORHOOD, the adjoining land owners living on their farms. CLOSE TO CHURCHES, GRADED and HIGH SCHOOL, CENTRE COLLEGE and KENTUCKY COLLEGE FOR WOMEN, and the BEST TOBACCO, HEMP, GRAIN, HOG and CATTLE MARKET in Central Kentucky.

DANVILLE and BOYLE COUNTY do not have to be advertised. Their reputation is established. Known everywhere as a moral and educational center with a population of hospitable and prosperous people. Danville is also a great railroad terminal and ONE MILLION DOLLARS has already been authorized to be spent at Danville in the improvement of railroad facilities.

"HILL TOP FARM" is within one mile of the L. and N. Railroad and adjoins the C. N. O. and T. P. Railroad, with side track on the farm. Electric line runs by the farm and only has to be tapped to equip the farm with light and power. "Hill Top Farm" is ABUNDANTLY WATERED with seven NEVER FAILING SPRINGS, four wells and one cistern.

IMPROVEMENTS:—Main dwelling eight large rooms, two porches, halls and bath-room with butler's pantry. Heated by furnace, two room servant house and garage, beautiful yard with large shade trees, large two story stock barn, basement will hold 125 cattle, second story nine large box stalls and the main portion prepared for hay fork and will hold 7,000 bales of hay. Fertile garden and plenty of fruit. The second set of improvements consists of a splendid six room two-story dwelling, three porches, two stock barns, other out buildings, cistern, good garden, large yard and mulberry, sugar tree and wild cherry shade trees. This set of improvements is within ONE-HALF MILE OF SPLENDID GRADED SCHOOL. Two other sets of improvements on farm.

SUB-DIVISION:—200 acres with main dwelling, a 60 acre tract and 80 acre tract with improvements, a 40 acre tract with improvements, to which may be added a 20 acre tract and a 14 acre tract, also a 45 acre tract with improvements and other tracts. We always SELL to suit the BIDDERS, so two or more tracts may be combined to suit the purchaser. In the number of acres.

LANCASTER MAN LOSES HUNDREDS OF DOLLARS.

"I am sorry I did not hear of Mayr's Wonderful Remedy a few years ago, as it would have saved me several hundred dollars. Five years I suffered from indigestion and severe bloating. I grew worse all the time. My doctor said an operation would be all that could save me. I took a course of Mayr's Wonderful Remedy, and for the past year have been entirely well. It is a simple, harmless preparation that removes the entangled mucus from the intestinal tract and kills the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded."

BRADSHAW MILL.

Miss Irene Bradshaw entertained

several friends Saturday afternoon.

Miss Mable Prewitt spent Monday with Mr. and Mrs. C. C. Prewitt.

Mrs. Grant Sanders has been seriously ill, but is better at this writing.

Mr. and Mrs. James Mclear of Lexington, are visiting Mr. and Mrs. L. W. Warmoth.

Mr. Roy Crevch of Hyattsville, is with his brother-in-law, Mr. C. C. Prewitt, looking out away his tobacco.

Mr. and Mrs. Cecil Humphrey of Boone visited Mr. and Mrs. Grant Sanders last Saturday night and Sunday.

Mr. and Mrs. S. N. Sanders and little daughter Nancy, spent Sunday with Mr. and Mrs. Walter Sanders of Elderton.

Mr. and Mrs. Carl Prewitt, Mr. and Mrs. Doreen Prewitt, Mr. and Mrs. Arthur Sebastian and Miss Susan Long were entertained at the home of Mr. and Mrs. N. L. Prewitt Sunday.

GUNN'S CHAPEL.

Several people from this place are attending the protracted meeting at Buckeye.

Mrs. John Irvin Ishell is quite ill. It is reported that she has symptoms of fever.

Mr. and Mrs. Irvin Ishell of Madison county, were the week end guests of Mr. and Mrs. Wm. Ishell.

The sugar cane is ripening. Several have made their sorghum. Many more to make in a few days.

Mr. and Mrs. John M. Amon and little son, James R. and Mrs. B. Ray motored to Lexington last Thursday on business.

Messrs Elbert Teater, Coy Price and little son James, spent Saturday and Sunday at Camp Taylor with Joseph Price.

Roman, the little son of Mr. and Mrs. Floyd Humphrey, who has been ill since February died Sunday morning at 9 o'clock.

The tobacco of this place is looking fine since the rain. The farmers are much encouraged. It proves to be a good crop if not overtaken by the frost.

The Gunn's Chapel school gave an ice cream social Saturday afternoon. A large crowd attended. The proceeds are to be used for school equipments.

The first opossum hunt of the season was enjoyed last Saturday night by Messrs Clem Murphy, McKinley Ishell, Harman and Hunter Davis. They reported that opossums seem plentiful but none were caught.

The Berea Faculty members more than one hundred, and is being strongly recentered for next fall. Prof. C. Raymond Raymond, formerly well known as a Berea teacher, returns after some years absence, during which he has been pastor of a very large church in Brooklyn, N. Y. President Albert J. Weidner of Frenchburg goes to Berea as Professor of Latin, and Prof. H. P. Keen of Chicago as Professor of Mathematics.

TO THE STUDENT BODY OF THE COMMONWEALTH OF KENTUCKY.

The present titanic contest is justly named a World's War, since it involves practically all the civilized nations of the earth and upon its successful conclusion depends the civilization and liberty of all mankind.

Every man and every woman should vividly realize a personal obligation to it, and should be ever conscious of a solemn duty to give time, treasure or life, if need be, to this great cause.

The unique and superb part this nation has already played in this death struggle of Kingdoms and Empires is due to the splendid "team-work" of heads, hearts and hands; stout hearts and clear heads directing expert and willing hands. In matters not how patriotic we may be, how willing or how anxious to serve, if we are not prepared—carefully, thoroughly and skillfully prepared—for the contest that involves a knowledge of all the forces of nature and researchers of science, our zeal is comparatively vain.

Fortifications can be erected and great guns accurately fired only by those possessing a knowledge of delicate mathematical calculations. The universal use of gases and high explosives require skilled chemists. Our soldiers, aviators, physicians and nurses must possess a knowledge of physics, mechanics and medicine. We need mechanical and electrical engineers, men skilled in the construction and operation of every character of machinery. The call is peremptory for young, alert and plastic intellects, ready, willing and capable, who will first acquire and then apply this invaluable knowledge so necessary to complete a final victory.

It is gratifying to know that institutions, as well as individuals, have enlisted for the war, and that our great Universities and other institutions of higher education have developed the scientific and practical branches of study which are essential to the conduct of this war and the development of our industry and our commerce when the war is ended.

The President of the United States again voices the opinion of a nation, solemnly behind him when he expresses his profound gratification "that despite the unusual burdens imposed upon our people by the war, they have maintained their schools, and other agencies of education so nearly at their normal efficiency."

Every student whose immediate presence is not demanded at the front should, with untiring application and characteristic American order, devote himself to thorough preparation for the great task before him, and that preparation can only be acquired within the walls of our institutions of learning.

Yours Very truly,

(Signed) A. D. STANLEY,
Governor of Kentucky

To Skin Beets.

An easy way to skin a beet without bleeding it and causing it to lose color is to put it in cold water as soon as it is cooked. Then draw the hand gently down the beet and the skin will drop off without trouble.

Why Suffer?

Mrs. J. A. Cox, of Anderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at all. Cardui cured her, and we sing its praises everywhere. We receive many letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. E-77"

What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.

LIBERTY BOND DISLOYALISTS ARE SENTENCED

Cleveland, O.—The men who believed that they could not be touched by the law for Liberty Bond dealings of almost any character whatever are learning their mistake.

The recent arrest and conviction and sentencing of men who have depended upon violating laws to lead Liberty Bond owners who needed the money into their offices ought to have a chilling effect upon other brokers who have built their houses upon the same foundation.

Isadore Gantz, pawnbroker of Farrell, Pa., was arraigned and held on \$1,000 bail for the November grand jury session. He advertised to buy bonds, and then offered the bondholders who responded to his ad about 80 cents on the dollar for their bonds.

LEWIS B. FRANKLIN.

He argued to anyone who questioned his policy of cutting the market price of the bonds, that anyone had a right to sell any bond he owned at any price he chose to take—and could get; and that anyone had a right to buy a bond at any price he saw fit to offer—and could get the bond for. It is the same argument which has been used by all of the bond price cutters. And in ordinary times it would hold, probably. But Mr. Gantz learned, when he was before the district attorney, that the United States law, and that there are, in consequence, limitations to certain activities which do not exist in time of peace.

In order to give an excuse for his offered price for the safest securities in the world—United States government bonds—Gantz was forced to argue that they were not worth much more than that. His prosecution was therefore possible under the sedition law.

W. S. Bennett of Youngstown was sent to the workhouse within the last few days for similar suggestions, and other cases are in process of being prosecuted in the fourth federal district at the present time.

Lewis B. Franklin, director of the United States war loan organization, in addressing a meeting of the Liberty Loan county chairman of this district, emphasized forcefully the importance of keeping one's bonds, and of urging other people to do so.

"NOT A NATION"

They said that we were not a nation;
Just a medley from various lands;
No national heart and no national soul;
With no hope and no wish to join hands.

Nothing to hold us together;
No aims and no dreams that we shared;
Ideals and backgrounds all different;
We couldn't make war—if we dared.

Then the word blared forth to the country,
"Close ranks for the flag of us all!"
And the faith that brought us together
Shone out at the Colors' call.

One cry came back from the people,
From Latin and Norman and Slav:
"America! Freedom is threatened!
Take all that we are and have."

"We know what we sought when we came here;
"What we're working for, everyone,
"And that work has bound us together,
"It will hold till eternity's dawn."

"We give you our lives and our dollars,
"We will work; we will fight; we will die;
"For the faith that has builded a nation
"From the four winds of earth, and the sky."
—Lucy Joanne Price.

New Food for Horses.

Practice Kindness.

Kind words cost no more than unkind ones. Kind words produce kind actions, not only on the part of those to whom they are addressed, but on the part of those by whom they are employed, and this is doubly in virtue of the principle of association.—Jeremy Bentham.

Seeking Beauty.

Girls are natural beauty lovers. The thought girls give to their dress and the pride they take in whatever is pretty and becoming, proves that. But the girl who loves beauty must be careful not to put a higher estimate on the beauty of bright eyes than on that of a sweet soul. Do not value the bloom of silk above the charm of kindly speech. In seeking beauty, do not lose sight of the beauty which is the highest of all.

DEMOCRATIC TICKET.

For United States Senator.

A. O. STANLEY,

of Henderson, Kentucky.

For Congress

HARVEY HELM,

of Stanford, Kentucky.

The State Executive and Central Committees of the Democratic Party have nominated Governor Stanley to fill the vacancy in the nomination caused by the death of Senator James. And the Governor's name will appear upon the ballot at the November election as the standard bearer of his party.

Some democrats in Kentucky thought the Committee should have ordered a primary or a convention to select the nominee, but after the law of the State was examined carefully it was the opinion of the leading attorneys, who advised the Committees that there was no provision of law authorizing the calling of a primary to fill the vacancy in the nomination and it was the duty of the Committees to select the nominee. We believe the action of the Committees meets the approval of the democrats of the State. At the request of the Courier-Journal that democrats give their views by writing to the Committees, more than two thousand letters were received and all except seven asked the Committees to make the nomination and almost universally asked that Governor Stanley be made the nominee. In naming Governor Stanley at this time the party becomes once more united.

Before Governor Stanley was nominated the Committees sought the advice of many prominent democrats of Kentucky, including Senator Beckham, who thought it was the duty of the Committees to make the nomination and after Governor Stanley was nominated thoroughly approved the Committees' actions and made it convenient to call upon the new nominee and pledged his hearty support to the party's candidate. Governor Stanley and Senator Beckham will probably appear upon the stump together over the State and all functional bitterness that has divided the party in recent years will now disappear and the nominee should be elected under these circumstances by the old time democratic majority.

By appointment of the Governor, Hon. George B. Martin, of Cattlesburg, will represent Kentucky in the United States Senate, filling the vacancy caused by the death of Senator James.

While the new Senator has never been actively engaged in politics as an office seeker, he has for a number of years tak-

en an active interest in the Democratic Party. Senator Martin is regarded as one of the ablest and most successful lawyers in the State and a gentleman of the highest character and integrity, thoroughly democratic in all his views and can be depended upon to carry out Senator James' plans and policies as nearly as any one who could have been selected. The new Senator will stand by the President in his war policies and be active and industrious in carrying out the Nation's war program in every respect. Kentucky's junior member of the Senate will take a high position in that great body and his constituents will be proud of the record he will make in the short time that he is permitted to serve.

DEMOCRATIC NOMINEE FOR THE SENATE

The name of Governor A. O. Stanley will appear upon the official ballot as the democratic candidate for the United States Senator at the November Election. Senator James, who received the nomination at the August primary having died, it be-

GOVERNOR A. O. STANLEY.

came the duty of the Democratic Committees for the State to select the party's candidate. Governor Stanley being the only candidate before the Committees, received all the votes except one. The Committees received hundreds of letters requesting the nomination of Governor Stanley, by the Committees, which indicated that the Governor was the choice of the party.

GENERAL REGISTRATION

Under the broad authority given the Kentucky Council of Defense provision is made for a general registration of all the people in each County of the State. In the future, the date yet to be fixed, a general registration of all persons in Garrard County over sixteen years will be required to meet in their respective school districts and register their name giving their age and occupation, and state the amount they have subscribed for Liberty Loan Bonds, War Saving Stamps, the Red Cross and the Y. M. C. A., and for any other patriotic purpose since the war. This is one of the biggest undertakings in the State and will be the perfecting of organizations for each County for war work. Before this, advertisement will be given of the big undertaking and the people advised of the aims and purpose of this registration is had due publicity and general registration. Some of the counties in Kentucky have already had it and are greatly pleased of the organization acquired in this way.

WHAT SHALL WE EAT DURING THE COMING WINTER?

This is a question more easily asked than answered. The shelves of the storeroom and pantry of the average housewife bear less canned fruit and preserves than in many years; the blackberry, always looked upon as the poor man's friend, was a complete failure this year, the strawberry and raspberry crops were short and very high, and there was perhaps never such a scarcity of fruit in the county, neither apples or peaches are to be had.

The continued dry weather during the height of the vegetable season made the crop exceedingly short, and unless we have a long autumn with frost holding off for some time, we may not have many vegetables "put up". However without early frost, there is a possibility of late beans, corn, and tomatoes and a liberal supply of these commodities to fill the depleted stock of eatables against the coming winter.

KHAKI COLUMN

Sunday, Aug. 18.
"Somewhere in France."
Dearest Mother, Father, Grannie, Sisters and Bros.,

A few lines to let my dear ones back home in dear old Sunny Ky., know I am well and happy and enjoying my "visit" in France, and hope by the time this reaches you it will find you all in the best of health, and enjoying God's beautiful rays of sun. I am not so busy now—but at that I have plenty to do, nitho a little work hurts no one and really makes a real man of him. This is the first time I was ever so far away from home—of course I have been to Paint Lick, Brynnsville and Stanford, and a few places but this place has them all beat.

Tell my old friend Mr. J. S. Haselden, that when I get home I want to get into the Real Estate business with him as I have had some experience in that line "covering ground". I wish I had a nickel for every mile I have traveled I would get a 18 hour pass, buy me an airplane and come home to see you.

When I got your letter with the good P. S. Money in it, I got it changed into French money and wished you could have seen the Francs that I got. I was some rich, as the French people talk about francs the same as we in the states talk about dollars. We say for instance, that it is worth so many dollars, the French say it is worth so many francs, and a franc is worth about 18 cents in our money, and I had 11 1-2 francs for the \$2.00. Seems and sounds funny, doesn't it?

Mamma and Papa, dear, I think of you all dilly and I would like to have papa with me so we could visit the "old time" farms where they thrash out their wheat in their own barns, as they do not know what such a thing as a thrasher looks like. Their barns are built right along side of their homes and I go out to watch them work as it certainly is interesting. These people here where I am quartered put me in the mind of being at home as they have plenty of milk and butter, and when I want a glass of milk or some eggs I just go in and help myself. Fry my eggs on the stove and fix me up a nice lunch, and sit down and eat it. If Madame is not too hussy she will fix it for me, and to try to pay for it, they take it as an insult, they say something which means in English, No, no, not at all, or something to that effect.

All the men certainly have comfortable quarters and our cats can not be beat. The "Orderly Room" is a private home and that is where I am quartered. It certainly seems strange to me to be behind lace curtains and see once more paper on the walls.

The man and wife where I am quartered are as nice as can possibly be, they speak a little English, and I a "little" French, so we get along fine and I feel as if I am away from home at work and boarding at a private home.

I have so much to tell altho there is a certain amount that I can write, one really gets started on a subject and then he realizes that he has made a mistake, and has to start over again. In the French home the people all wear something like house slippers and when they go out, they have a pair of wooden slippers they slip on. The colored troops are known to the French as the "Black Faced Americans".

Guess you can tell from the papers that the Americans are doing a wonderful amount of work and, ere long, they will put an end to it all. Please do not worry over me, as I am well and enjoying myself and from the way they are going after the Kaiser they will soon have his "goat". Tell all my friends hello for me.

I close asking God to bless you all, looking to Him for guidance and strength and trusting all to Him.

With love and sweet kisses,
Your son, Billy,

On Active Service with the

German Lines.

Aug. 10th, 1918.

My Dear Mr. Farra:

Had intended to write you a letter of thanks before for your appreciated favor of helping me in that work, while I was in the States. Have been a busy Marine since landing over here, and yet I am enjoying the very best of health and the country agrees with me fine. Am sure you know the part the Marines are playing, so you can still say a good word for us. I find the "Heinies" to be greatly outclassed when they run up against the boys of Uncle Sam, and they have

been told so often that we were no good, that their prisoners express a big surprise at our good show on the field—and I have yet to find a "Hun" who wasn't tickled to know that he was a prisoner in our hands and not in the German lines to be forced to fight. Our Company was the first to take some prisoners here (on this front) and this "of course" is worthy to mention. Am fully expecting to see their finish soon, as I think by this time that this has even begun to creep into their hard heads. Something UNUSUAL for a Heime you know. Had a letter from Judge Walker last month, in which he said Garrard was doing its bit. Glad to know this for I never wished the "Land of Now" to shrink on its duty. Have lots to tell you and the people back home about this game when I get back, as the Censor will not permit me to mention our doings. Again thanking you and wishing you the very best of health. I am,

Mr. W. S. Carrier has just returned from the bedside of his son, Mr. Glass Carrier, at Fort Bliss Texas. He reports that Glass is improving after a very serious illness, and his friends here and elsewhere will be indeed glad to know this. A BEAUTIFUL SERVICE

Last Sunday morning, a most impressive service was held at the Christian church in memory and honor of the boys who have answered the country's call, from the church and Sunday school.

Special music for this occasion was arranged by Mrs. Noland and her excellent choir; the duet by Messrs. Johnson and Dunn and the solo by Miss Mary Lee Lear were well rendered.

The honor roll was called and the parents or nearest relative present gave the latest news from the boy. It was most gratifying to hear of the wonderful service these young men are rendering and their rapid advance from private to Lieutenant, Sergeant and etc. Bradley Bourne had the distinction of answering to his name, as he is at home on a furlough.

The beautiful service flag contains 48 blue stars, representing the boys in active service, and one gold star for Heide Sanford, who lost his life on the Jacob Jones when it was struck by a submarine.

The roll was called by Mrs. George Robinson, after which she read, most impressively the following lines to the Service Flag, written by Mrs. J. A. Amon:

LINES TO THE SERVICE FLAG.

Oh! say can you see by the churches

dim light;

What so proudly we hail as the service

flag flying?

Whose broad hand and bright stars

thru this world war's great fight,

Represent our brave boys who are

fighting and dying,

And the gold star so fair and the blue

ones right there,

Give proof to us all that our boys are

over there.

All hail to the star spangled flag,

may it save

The land of the free and the home of

the brave!

From the shores dimly seen our trans-

ports are going,

While the foes haughty hosts in dread

silence repose,

What is that which the breeze on the

church wall is howling?

As it gracefully hangs, half conceals,

half discloses

The hearts that are aching, the homes

that are breaking.

In full glory reflecting the price we

are paying.

All hail to the star spangled flag,

may it save

The land of the free and the home of

the brave!

Oh! where is that band of French-

men so brave?

Who plighted their lives in our own

Revolution?

Their spirits have prompted our own

boys to leave,

For the Western Front and the war's

desolation.

America's sons answered the call

without fear,

And said, at his tomb, "Lafayette,

we are here."

All hail to the Star Spangled flag,

may it save

The land of the free and the home of

the brave!

Oh! thus let it wave for our boys who

stand

Between their loved homes, and wild

war's desolation.

When come victory and peace, as we

A WORD TO PATRONS OF RURAL MAIL ROUTES.

The rural mail service was established for the accommodation of rural patrons, at a considerable outlay upon the part of the government for the maintenance of this service. Naturally the government expects the hearty cooperation of the patrons as a token of their appreciation.

First, the roads must be kept passable, in as good condition as possible, in order that the carrier may be able to travel them at all seasons of the year without danger to himself or his equipment. So if you have not worked your dirt road and put it in good condition and it becomes impossible, then do not complain if service is cut off from that particular portion of the road this winter. This will most assuredly be done, as Uncle Sam does not either require or expect his carriers to expend several hours going over a few miles of road which with a few hours labor could have been placed in a condition that would have rendered them traversable in a fourth of the time. Get them out of the creek and in a condition to be traveled in minimum time.

Put your boxes up securely and so they will be readily accessible to the carrier, as he is not required to leave his vehicle under any circumstances, and if your box is not accessible, he may at his option pass it without serving it. During a heavy snow you should clear the way about your box so as to enable service to run from it without inconvenience. Remember the carrier has probably a hundred other boxes to serve besides yours, the days are short and he must get home before night, and that your help and cooperation is not only his just due, but will enable him to render you more efficient service.

The war has sadly depleted the ranks of the rural carriers and the old carriers, many of them, are serving the year round without a days rest and they are entitled to every aid and assistance you may be able to render them.

KIRBY.

Mrs. Maria Kirby breathed her last about three o'clock last Saturday afternoon at the Kinnard home on Danville street in this city, and after funeral services by her pastor, Rev. Hudson, at the house on Sunday afternoon her remains were placed at rest in the Lancaster cemetery. For more than a year Mrs. Kirby had been an acute sufferer from a complication of diseases, and as she had failed rapidly during the last week, her death although a terrible shock to her family and the entire community, was not unexpected. Mrs. Kirby at the time of her death was approaching her 60th year.

No word that we could say would add to the loving memory of this truly consecrated woman; a daughter of the late William H. and Patsy M. Kinnard, she was born and lived her days in Garrard county and Lancaster, and she was known to all. A member of the Presbyterian church from her childhood, she was ever a zealous worker in church affairs, and in any cause that was worthy, she was especially active and a teacher in the Sabbath School, and the little children, who were so fond of her, and to whom she gave her fondest love and attention will miss her sadly. She was also one of the most active and faithful members of the local W. C. T. U., and this organization will miss her sadly from their counsels. Charitable, yet unassuming in her charities, there are a great number of people, both white and black who will cherish her memory for some kindly act which she did for them.

No death that has occurred in Lancaster in recent years has cast a deeper shadow of sorrow than that of Mrs. Kirby, she was known to so many, and loved by all who knew her, and the hearts of the entire community were saddened by her taking, and all join in deepest sympathy for the family in their irreparable loss.

AT AUCTION.

BIG LAND SALE

Tuesday, September 17th

At Ten o'clock a. m. on the Premises.

THE SOLOMON VAN METER FARM recently owned by the Beasley Brothers, of seven hundred and seventy-five acres, located one mile from city limits of Lexington on Bryan Station Pike. The entire farm is in Blue Grass sod and has been for many years, a large part being virgin soil. Will be sub-divided into six tracts as follows:

TRACT NO. 1. Containing one hundred and forty acres, located on the West side of Bryan Station Pike, with the finest home on it in Kentucky, built by Mr. Van Meter about twenty years ago at a cost of fifty thousand dollars. A fine stock barn built by Beasley Brothers at a cost of five thousand dollars and all other necessary outbuildings.

TRACT NO. 2. Containing sixty acres adjoining tract No. 1 (on south side). No improvements but Virgin Soil.

TRACT NO. 3. Containing two hundred and fifteen acres, located on the East side of Bryan Station pike adjoining on the North the farms of W. C. H. Wood and the late John W. Marr, mostly virgin soil, all in Blue Grass sod, with fine woodland, the most beautiful building site in Kentucky, never-failing spring and pond.

TRACT NO. 4. Containing one hundred and twenty-seven acres, adjoining Tract No. 3 on the South. A part of this tract is Virgin Soil and the balance in Blue Grass sod for the past twenty years.

TRACT NO. 5. Containing one hundred and twenty acres, adjoining Tract No. 4 on the South. A part of this tract is Virgin Soil and the balance in Blue Grass sod for the past eighteen years.

TRACT NO. 6. Containing one hundred and twenty acres, adjoining Tract No. 5 on the South. A part of this tract is Virgin Soil and the balance in Blue Grass sod for the past twenty years.

This is one of the last big stock farms in Fayette County to be sub-divided for the small farmer and there is not a single tract of this land that won't pay for itself in two years either in tobacco or hemp. Every acre of it is ready for the plow. Only a mile from the city limits of Lexington. Did you ever have a better opportunity to buy a farm under better conditions? If you want a farm, all we ask is to look this one over.

TERMS will be liberal and will be announced on day of sale. Beasley Brothers, the late owners, who now live on the farm will take pleasure in showing you over the place.

Disgusted at Politics.

Recently a retired politician of note was giving a young man about to break into the political arena a bit of advice. "I've had everything it is possible to get except the presidency. When I started in politics things looked very bright—I got positions of trust, big appointments, and everything I wanted. Now all I have after years of activity is a lot of warm enemies and cold friends."

Water and Air.

Water in contact with the air absorbs its carbonic acid in a decidedly practical degree. In densely populated districts this is of considerable importance. The difference is perceptible to the sense after a long drought, as the common expression "refreshing showers" indicates.

Primitive Methods of Farming.

In Central America many primitive agricultural implements are still retained. The native farmer still uses a plow with a crooked tree-branch pointed with iron. The objection to the modern two-handled plow is that one hand is needed for guiding the animals, hence the introduction into Honduras of a third modern-style plow with one handle.

Old New York Tree.

The oldest tree in New York, or anywhere near the city, is probably the famous tulip tree near the south bank of the Harlem ship canal, a few hundred yards from the Hudson river. The foresters have estimated its age at something near three centuries, but that guess may be somewhat short of its true age, for the trunk is far from symmetrical, and had been subjected to hard usage before the park department required its removal and rotted interior and put on iron fence around it to keep vandals at a distance.

Germ-Proof Money.

To a bank in Spokane, Wash., belongs the distinction of circulating the first antiseptic germ-proof national bank notes. The United States treasury is still experimenting with devices to launder dirty bank notes to bright, crisp ones, but the Spokane bank has the first sanitary money on record. Fifty thousand dollars in bills, put out by the bank, were signed with an ink said to consist largely of carbolic acid. The result is the bills are saturated with an agency which means death to the most vigorous germ who'd live there.

Daily Thought.

Patience and gentleness are power.—Leigh Hunt.

Will It Return to Its Owner?

Flexible tips feature new umbrella ribs, which their inventor claims will prevent an umbrella from being blown inside out.

Make Life Worth Living.

The question is life worth living? Implies a species of blasphemy. The right question to ask is: Am I worthy of living? If I am not, I can make myself so. This is always in my power.—Felix Adler.

War's Glory.

War, like all other situations of danger and of change, calls forth the exertion of admirable intellectual qualities and great virtues, and it is only by dwelling on these and keeping out of sight the sufferings and sorrows, and all the crimes and evils that follow in its train, that it has its glory in the eyes of men.—Bryant.

Ears Continue Growing.

It is said that throughout one's lifetime one's ears continue to grow bigger. The ears of a girl, admired perhaps for their small size, are fairly large by the time she has reached middle age. In old age they may be larger. In any company of people one may notice that it is the elders who have the big ears. In the very old they are overgrown.—Boston Globe.

The Life of John Buckley.

It was ancient history to some that the "Life Story of John Buckley," edited by the well-known J. C. Buckmaster of the South Kensington museum, London, was really the story of his editor's life. It was one of the best bits of biography we have in fact, and I am not surprised to find that the question of its authorship has bobbed up once again in the old country.

Atrocious Pun.

Conrad Erskine, an old man when Lord Erskine was in the height of his reputation, was of a timid and nervous disposition, usually prefacing his pleadings with an apology to that effect; and on one occasion, when opposed in some cause to Erskine, he happened to remark that he felt himself growing more and more timid as he grew older. "No wonder," replied the relentless barrister, "every one knows the older a lamb grows the more sheepish he becomes."

PLAYING THE GAME FAIRLY

So long as this war lasts the people
of America, one and all, must make
up their minds to play the game fair-
ly; to share and share alike.

And to make as little complaint as
possible.
No one person is entitled to privi-
leges his neighbor may not enjoy.
The individual no longer counts.
The people in the aggregate are su-
preme. It is not an individual salu-
vation our army is fighting for along
the battle front. They are soldiers
of the common good, those boys in
khaki. They fight for all of us.

Sometimes the restrictions laid by
the food administration have proved
annoying. But for the most part we
have grinned and stood 'for them.
And none of them can truthfully say
that we have suffered much—that in
fact we have suffered at all.

Up and down state, here and there,
a farmer has occasionally been re-
lieved of a withheld wheat supply.
Some pantries have been invaded and
excessive flour and sugar supplies
have been confiscated. In some in-
stances farmers have suffered in these
raids.

Yet the farmer must expect no ni-
vantage over the city man.

The man who raises sugar beets
gets no more sugar than the farmer
who raises wheat. Why then should
the wheat raising farmer have more
flour than the man who raises sugar
beets? Why should either have more
than the man who makes their plows?

They shouldn't. We must share
and share alike, farmer or artisan or
what not.

Not only this but we must each and
every one of us do our share toward
financing the war. We may not play
fair at one end of the table and cheat
at the other. We must play the game
on the square all the time.
Uncle Sam expects this of us.
Victory depends on it.

Another test of our loyalty is com-
ing—the Fourth Liberty Loan.
Get ready for it. Play fair.

Barber Blames Customer.

This stuff about the talkative barber
is all wrong, it appears. A barber
writes Seattle Post-Intelligencer pro-
testing against further misrepresen-
tation. It is the customer who insists
upon opening his heart, he writes, and
the poor barber is obliged to listen to
all manner of confidential matter, home
troubles, scandals, and occasionally the
customer spills a bun tip on the stock
market and the barber goes broke. It
is this latter contingency that impels
him to protest.

Have a Care.
Don't tell your troubles to a police-
man unless you are looking for more
trouble.

He Wanted to Get Back.
Little Boy (who has a fear of being
buried alive): "Mamma, if I should
die please put me in a vault and put
a nickel in my pocket, so if I come to
life I can get home on a street car."

Taking Out Ink Stains.
It may not be generally known that
it is quite easy to take out ink stains
with common soda. Damp the stain
with cold water and then cover
it with soda. Leave it for about
an hour, till the stain completely dis-
appears. It does not leave a mark
after.

Old Chinese Industry.
Experts differ as to how long ago
the Chinese began to make rugs.
There are some who think it is one
of the native arts of China and others
maintain that it is acquired. Never-
theless, it is safe to say that, like the
other arts of the Flowery Republic,
Chinese rugmaking is of very great
antiquity.

Canada's Big Canal.
The Welland canal in Canada, car-
ries navigation around Niagara Falls
and connects Lakes Erie and Ontario.
It is 27 miles long, was built by Can-
ada and was opened in 1829 and cost
about \$300,000.

The Point of View.
The difference between American
and French automobile driving is this:
In America when your tire blows up
you say: "Good heavens! There goes
our tire!" and in France you say:
"Hoorsay! That was only the tire."—
Stars and Stripes.

The V. M. C. A. is undenominational
as an institution. Its aim is to pro-
mote the social, mental, physical and
spiritual well-being of all young men
without regard to their church affilia-
tions or religious beliefs.

"Lead" Pencils.
The common black lead pencil is
made from graphite and contains no
lead. Lead pencils received their
name from the leaden plumbers which
were used to rule lines on paper be-
fore the use of graphite.

A New Dodge.
To a Natal Kaffir belongs the credit
of inventing a labor-saving device for
chimney cleaning. One of the col-
ony journals says: "A native in
Western had been asked to sweep a
chimney, which he undertook to do.
Later he was seen mounting the bod-
der he used for the purpose with a
couple of fowls under his arm. These
he allowed to flutter down the flue,
and the job was done."
